

What is light?

Page 2

Without light there'd be no life
and everything would die,

So thank God that he created
the sun up in the sky.

He also sent his Son
to bring light into each soul.

Jesus shining through us
should really be our goal.

Page 3

All burning things make light

and enable us to see.

They get hot `cause as they burn

they give off energy.

With the light of Jesus in us,

burning bright as day,

His warmth we give to others

through what we do and say.

Page 4

The colors of the rainbow

are wrapped up in the light.

Because they're all together

they make the light seem white.

Jesus is the light of life,

he shows the Father's love.

He light is pure and holy,

reflecting God above.

Page 5

Light it travels in a line

in rays moving very fast

So when something blocks its path

a shadow will be cast.

Make sure nothing in your life

blocks God's shining light.

Turn away from darkness

and choose to do what's right.

Page 6

Remember to thank God

for the sun up in the sky.

For without its light and warmth

everything would die.

Thank God that his Son

brings light into your soul,

Living in his light

should daily be your goal.

Page 1

Without light there's only darkness

that's the way things started out.

Until our God decided

to bring life on earth about.

To bring light upon the earth

God put in place a burning sun

And said that light was good

when he saw what he had done.

What is light?

L—L Make sign of "L"

Light Flash fingers of both hands in front of body

Enables

us to see Put hands over eyes and look around

L—L—Light Same as above

Heat and Cross arms and rub up and down

Energy Move hands back and forth rapidly in front
