

CREATION AND THE BEGINNING OF HUMAN HISTORY

#8 - The Cell Speaks of God's Wisdom Proverbs 8:22-31

PICTURES NEEDED

8-2 Picture of living cells

NURSERY CONCEPT

All living things are made up of tiny cells

LESSON CONTENT

Show the visual. (Picture 8-2)

This is a strange picture. You may wonder what it is because you have never seen anything like it before. It is a picture of living cells, which are something so small you can't see them with your eyes alone. People have to use a machine called a microscope to see them. Microscopes make things look bigger than they really are. (Use a magnifying glass to illustrate how looking through a lens can make something appear bigger.)

All living things are made up of cells. All plants, all animals, and even you, are made up of tiny, living cells. Cells grow and divide and make up all the different parts of a plant and all the different parts of your body. Cells are a wonderful part of God's design for life.

QUESTIONS

How big is a cell? What are made up of cells?

PRAYER

Thank God that he is good and has made living things. Thank him for your life and your body that is made up of tiny, living cells.

BIG QUESTION

What comes from God's Wisdom?
God's creation comes out of God's wisdom

COLORING

Color in the picture on the class notes.

IDENTIFY

Name the pictures in the boxes on the back of the class notes.

CONCEPT MOVEMENTS

All living things are made up of tiny cells.	Look at hands. Put fingers together to indicate small size
---	---

ACTIVITY

Seeing small details

Use a magnifying glass to examine parts of a plant. Ask the child what he can see about the plant that he can't see with his eyes alone.

LESSON SONG

My God is So Great

My God is so great, so strong and so mighty,
there's nothing my God cannot do.
My God is so great, so strong and so mighty,
there's nothing my God cannot do.

The mountains are his, the rivers are his,
the stars are His handiwork, too.
My God is so great, so strong and so mighty,
there's nothing my God cannot do, for you!
