The Dry Ground Appears

God gathered the waters together to form the earth. Besides the water God wanted there to be land on the earth so he gathered the water into the seas and told the dry ground to appear.

People and animals need land to live on. Plants grow on the land. Without land there wouldn't life on earth. God is making the earth a good place to live so he made areas of both land and water on the earth.

Color the land on the earth brown and the water blue.
