

Child's Name: _____

Lesson Passage—Genesis 1:24-25

²⁴Then God said, "Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, *each* according to its kind"; and it was so. ²⁵And God made the beast of the earth according to its kind, cattle according to its kind, and everything that creeps on the earth according to its kind. And God saw that *it* was good.

Through God's word we discover what is right and true.
Then we live it out in all we say and do.

LESSON 14

THIS WEEK'S BIG QUESTION

What can we learn from the animals?

LESSON RHYME

A—A—Animals
Found everywhere on earth
A—A—Animals
To their own kind they give birth

Level 2—Parent Notes:

- **Daily Reading:** Read the entire booklet to the child. Go back to the appropriate day, reread the content and have the child answer questions about it from the **Daily Reading Questions** at the back of the booklet. Include personal ideas and additional questions. Read and discuss the daily Bible verse if appropriate for the child. Have the child draw a picture related to the content.
- **Lesson Rhyme:** Read the **Lesson Rhyme** on the next page, saying the sound of the letter instead of its name. Point to each word as you read it. Discuss the meaning of the rhyme. Have the child trace the letter with a finger and say its sound. Practice with the child the signs that go along with the **Lesson Rhyme** (included below). Review and repeat the rhyme every day.
- **Concluding Lesson:** Complete the activities under **Concluding Lesson** at the back of the book.
- **Completion:** If the student brings this booklet back to the teacher on Sunday, with each day's work completed and the lesson rhyme memorized, the student will receive acknowledgement of a job well done.
- **Way to go, parents!** Your faithfulness in teaching your children the deed and statutes of the Lord isn't always easy, but it honors God and will have an eternal impact. Keep up the good work! Remember Galatians 6:9, *And let us not grow weary while doing good, for in due season we shall reap if we do not lose heart.*

This week I learned

Lesson Rhyme Signs

A—A	Make sign of "A"
Animals	Make "A" with both hands, knock together in front of body
Found everywhere on earth	Move "A" hands around in large circle Put both arms together in circle over head
A—A—Animals	Same as above
To their own kind	Continue animal sign
they give birth	Put arms together like rocking a baby.

Daily Reading Questions

Day 1: On what day did God create animals? What animals are cold-blooded? What animals are warm-blooded?

Day 2: What does it mean that mammals are warm-blooded? What does it mean to be wild? What are some wild mammals? What does it mean to be tame? What are some tame mammals?

Day 3: Where do mammal babies grow? What do mammal babies eat when they are born? What do other animals hatch from?

Day 4: What do all mammals have on their bodies at some time? What mammals hop? What mammals run? What mammals mostly walk?

Day 5: What are mammals that can be found in the sea? What is the only mammal that can fly? Why aren't birds mammals?

Day 6: What do all mammals give birth to? What is different about people from other mammals?

Concluding Lesson

Review: How are mammals different from other animals? What is the way mammals give birth? What does it mean to be wild? What are some wild mammals? What does it mean to be tame? What are some tame mammals? What is different about people from other mammals?

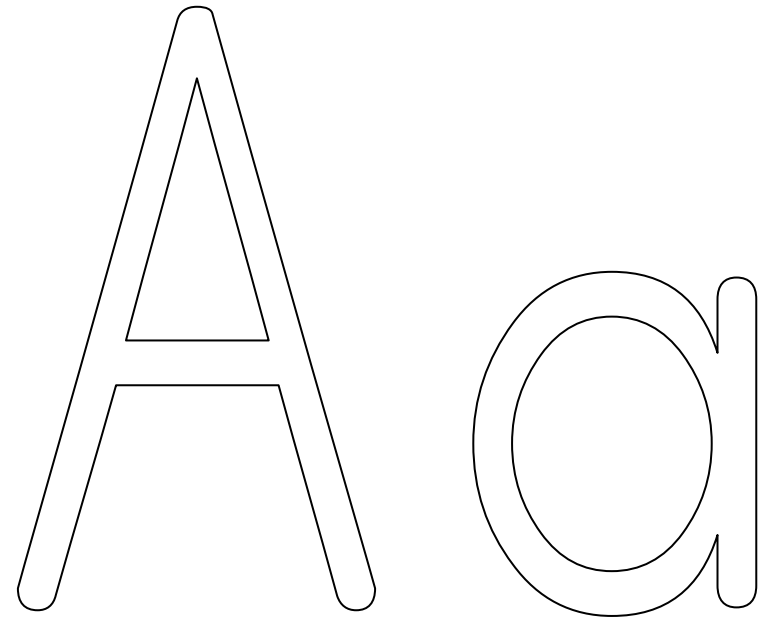

Prayer: Thank God for all the different type of animals he created. Pray that you would take good care of God's creation and the animals that live there.

Application: Take a nature walk or sit in a park and make a list of mammals you can find.

Dictation: Have the child dictate what important truth was learned from the lesson. Have the child repeat back the dictation, trace over the letters and draw a picture to go with it.

#14

What makes up the animals?

A—A—Animals

Found everywhere on earth

A—A—Animals

To their own kind they give birth

Day 1

Draw a picture of different types of animals.

On the sixth day God made animals
to move along the ground.
So different types of animals
around the earth are found.
Some animals are cold-blooded,
like lizards, snakes and frogs.
While others are warm-blooded,
like rabbits, cows and dogs.

Day 6

Draw a picture of a human being.

Some animals are mammals;
they are everywhere on earth.
To a living baby,
mammal mothers will give birth.
As people we are mammals,
but of a different kind,
Because to people God did give
a heart, will, soul and mind.

Genesis 1:24: ²⁴ Then God said, "Let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, *each* according to its kind"; and it was so.

Job 35:10-11: ¹⁰ But no one says, 'Where *is* God my Maker, Who gives songs in the night, ¹¹ Who teaches us more than the beasts of the earth, And makes us wiser than the birds of heaven?'

Day 5 Draw a picture of a mammal that lives in the sea.

Sharks are sharks and fish are fish,
mammals they can't be.
But still some mammals can be found,
swimming in the sea.
Birds aren't mammals, but with feathers,
they can soar up high.
Bats are mammals and like birds
they use their wings to fly.

Day 2 Draw a picture of a wild and tame animal.

The warm-blooded are called mammals,
their temperature doesn't change.
Even when the outside air
from cold to hot does range.
Mammals are all different,
but in some ways they're the same,
Some mammals are quite wild,
and others very tame.

Proverbs 30:29-31: ²⁹ There are three *things which* are majestic in pace, Yes, four *which* are stately in walk: ³⁰ A lion, *which is* mighty among beasts And does not turn away from any; ³¹ A greyhound, A male goat also, And a king *whose troops are* with him.

Genesis 1:25: ²⁵ And God made the beast of the earth according to its kind, cattle according to its kind, and every thing that creeps on the earth according to its kind. And God saw that *it was* good.

Day 3 Draw a picture of a mammal and its baby.

The babies of all mammals,
in their mothers grow inside.
After they are born,
they suck on milk their moms provide.
Other kinds of animals
from an egg will hatch.
The type of animal born,
its parents it will match.

Day 4 Draw a picture of a mammal that hops.

All mammals at some time,
on their bodies have some hair.
The color varies widely,
some are dark and others fair.
Some mammals hop, while others run,
some just mostly walk.
Some eat plants or insects,
while others prey will stalk.

Job 39:1-4: ¹ "Do you know the time when the wild mountain goats bear young? Or can you mark when the deer gives birth? ² Can you number the months *that* they fulfill? Or do you know the time when they bear young? ³ They bow down, They bring forth their young, They deliver their offspring. ⁴ Their young ones are healthy, They grow strong with grain; They depart and do not return to them.

Job 12:7-10: ⁷ "But now ask the beasts, and they will teach you; And the birds of the air, and they will tell you; ⁸ Or speak to the earth, and it will teach you; And the fish of the sea will explain to you. ⁹ Who among all these does not know That the hand of the LORD has done this, ¹⁰ In whose hand *is* the life of every living thing, And the breath of all mankind?
